EDUCATION

GCE N(A) Levels

Bowen Secondary School

01/2017 - 10/2020

Academic Achievements

- Edusave Good Progress Award (GPA)
- N Levels (Raw Score) : 12

Polytechnic Foundation Programme

Republic Polytechnic

04/2021 - 02/2022

Favourite Modules

- Project Management, Design Thinking and Problem Solving, Computing

Diploma in Digital Design and Development

Republic Polytechnic

04/2022 - 05/2025

Favourite Modules

- Fundamentals of Design, Web Application in PHP, UI/UX Design for Apps

WORK EXPERIENCE

Intern Technical Engineer

Rayton Solutions Pte Ltd

08/2024 - 01/2025

Responsibilities

- I supported the deployment of IT devices across schools as part of the nationwide SSOE project. My role included unboxing, configuring BIOS settings, provisioning devices with school-specific software, managing IDAS security protocols, and performing data sanitization for old equipment. I developed detailed checklists and protocols that improved the efficiency and accuracy of deployments. This experience sharpened my attention to detail, deepened my technical knowledge, and strengthened my ability to manage large-scale IT rollouts in an organized, user-focused manner.

Quality Assurance Tester

UOB

01/2025 - 06/2025

Responsibilities

- As a UAT Tester at UOB, I participated in several key projects, including the UOB TMRW app and Personal Internet Banking (PIB). I executed test cases, conducted regression testing, raised and tracked defects in Jira, and collaborated closely with developers, QA, and business teams to ensure high-quality user experiences.

SKILLS

HTML

PHP

Python

CSS

Wordpress

JavaScript

MySQL

Jira

Tablaeu

Adobe Illustrator

AdobeXD

Adobe Photoshop

Adobe Lightroom

Excel

Microsoft Office

Powerpoint

PROJECTS

Designing Portfolio using AdobeXD

- Crafted a visually captivating portfolio using Adobe XD, leveraging the power of Adobe XD components to ensure consistency throughout, and then elevated its appeal by refining the design in prototype mode.

Movie Reviews Website using PHP,HTML,CSS

- Applied the knowledge of website development and developed a working web application in PHP that stores and retrieve data to/from a database server

Final year project

- For my final year project, I collaborated with a team to develop *VOMO*, a volunteer engagement platform that rewards users with store vouchers for their contributions. I handled UI/UX design using Adobe XD, built the frontend with HTML, and implemented data management using an SQL database. The project aimed to promote volunteerism by providing a rewarding and seamless user experience.

SKILLS AND KNOWLEDGE

Project Management (04/2021 - 02/2022)

As part of my Project Management module, I worked in a team to plan, execute, and monitor a project from start to finish. I developed strong time and resource management skills and learned how to effectively coordinate tasks within a team. We were also responsible for promoting the project through social media campaigns, which taught us how to reach and engage our target audience.

CERTIFICATES
